

A Quick Start User Guide for your i.Tech Bluetooth Stereo Headset and the MSI BluePlayer

Before Starting:

Please prepare the following items:

- i) The **MSI BluePlayer** programs, “mpob_itech_v13a.sis”¹ or “mpob_itech_v13b.sis”² which are stored in the CD-ROM that comes with the package.

¹ “mpob_itech_v13a.sis” – suitable for Nokia 6630 and 6680

² “mpob_itech_v13b.sis” – suitable for Nokia 3230, 6260, 6600, 6670 and 7610

If you do not have the CD-ROM, contact your dealer to obtain the program.

- ii) **MP3 files for trial** – either store them in the handset or on a MMC/RS-MMC card.

Tips: To achieve the best playback performance, please use the **128kbps** MP3 file.

A) MSI BluePlayer Installation:

Please follow the steps below to ensure a successful pairing with the BluePlayer.

1. Transfer the BluePlayer program file to the MMC/RS-MMC card via a card reader or directly copy it onto the handset (for details on how to do this, please check your handset user guide).
2. To install the program, please open the BluePlayer program file from where the file was copied to, the installation will automatically start.
3. You will be prompted “**Unable to verify supplier. Continue anyway?**”, please select “**Yes**” to continue.
4. You will be prompted “**Install Mpob**”, please select “**Yes**” to continue.
5. Please select “**Install**” and then select the language for your MSI BluePlayer.
6. Check for a “**MSI BluePlayer**” icon on the handset main menu which indicates the installation is completed.

B) Pairing:

1. Press and hold the Multi-Function Button (MFB) on the headset until the LED alternately flashes blue and red.
2. Refer to your handset and go to “**Main Menu> Connect.> Bluetooth> Paired devices**”, then select “**Option>New Paired device**” and it will start searching for nearby Bluetooth devices.
3. Select the i.Tech headset that you wish to pair from the list and enter passcode “8888”.
4. You will be prompted “**Authorise device to make connections automatically?**” Please select “**Yes**” to continue.
5. Select “**Option > Connect**” and return to the main menu. Your Bluetooth headset is now ready to receive calls and listen to the music with the MSI BluePlayer.
6. Go to Main Menu and start the “**MSI BluePlayer**”.
7. Once you start the MSI BluePlayer, you will be prompted “**The cell phone is connected with <<your i.Tech headset>>. Do you want to play music to it?**” Please select “**Yes**” to continue.
8. You can now add your favourite MP3 songs to the Play List (Please refer to Section C) and start playing your tunes.

Trouble Shooting

Current supported mobile phone models:

1. *Nokia 3230, Nokia 6260, Nokia 6600, Nokia 6630, Nokia 6670, Nokia 6680 and Nokia 7610.*
2. *If the connection process is not completed within 2 MINUTES, reattempt pairing procedure in section B.*
3. *If you wish to pair a new Bluetooth stereo headset for the MSI BluePlayer, you must first delete the paired device from “**Main Menu> Connect.> Bluetooth> Paired devices.**”*

C) Music Playing Operation:

1. Add Playlist

- To add a MP3 file from your handset’s internal memory or the MMC/RS-MMC card please go to “**Options > Playlist > Add File.**” on your handset.

- To add MP3 files from the folder of your handset's internal memory or the MMC/RS-MMC card please go to “**Options > Playlist > Add Files From Folder**” on your handset

2. Delete Playlist

- To delete a MP3 file from the Playlist, please go to “**Options > Playlist > Remove Files**”
- To delete multiple MP3 files from the Playlist, press “**Pen**” and “**OK**” on the files you want to delete, then press “**C**”.
- To delete the entire Playlist, please go to “**Options > Playlist > Remove All**”

3. Shuffle/Repeat

- To play the Playlist randomly, please go to “**Options > Misc > Shuffle**”
- To repeat ALL files in the Playlist, please go to “**Options > Misc > Repeat All**”

4. MP3 information

- To view the MP3 MPEG information, please go to “**Options > Misc > MP3 MPEG Info**”
- To view the MP3 ID3v1 Tag information please go to “**Options > Misc > MP3 ID3v1 Tag**”

5. Load/Save device

- If you have another stereo headset, you may also pair it with the BluePlayer so that you can save the profile and load it later. Please go to “**Options > Setting > Save Device**”
- There will be three slots to store the information.

6. Shortcut Key mapping

<OK> = Press Enter/Select
 <2> = Stop
 <right> = Next song
 <left> = Previous song
 <5> = Mpeg info
 <6> = ID3V1 info
 <7> = Shuffle enable/disable
 <9> = Repeat All enable/disable
 <*> = Add file

<#> = Add files from folder
<c> = Delete one track
<Pen> + <c> = Delete all in track

Please be aware that whilst you are playing your music, any operation from your mobile phone may cause the music to stop.

We hope you enjoy using your MSI Blueplayer. If you have any problems with your pairing problems or issues with your MSI Blueplayer please contact your dealer or refer to www.itechdynamic.com for further contact details and information.
